

AKSHAJ V NAIR

Full Stack Developer | AI-Native Engineering | LLM Integration | DevOps & LLMOps

Kochi, India | +91 9496202179 | akshajvnair.dev@gmail.com | linkedin.com/in/akx-vishnu
github.com/akx-vishnu | akshajvnair.vercel.app/minimalist | Remote (IST | EST Overlap Available)

PROFESSIONAL SUMMARY

Full Stack Developer specialising in React and Python, with a track record of shipping end-to-end web applications integrating REST APIs, PostgreSQL, and LLMs. Hands-on with DevOps practices (Docker, CI/CD, Vercel, Render) and LLMOps workflows — model orchestration, prompt versioning, and Groq/Ollama inference pipelines. Experienced with AI-native development tools (Cursor, Claude Code, GitHub Copilot) to iterate rapidly on real-world projects.

SKILLS

Languages: Python, Java, HTML5, CSS3, JavaScript, TypeScript
Backend & APIs: Flask, FastAPI, NestJS, Node.js (Basic), REST APIs, JWT Authentication, Socket.IO
Databases & ORM: PostgreSQL, MySQL, SQLite, SQLAlchemy, Drizzle ORM, Redis
Frontend: React.js, Next.js, Vite, Tailwind CSS, Framer Motion, Radix UI
Mobile: Android App Development (Kotlin), Flutter, React Native
DevOps & Cloud: Docker, GitHub Actions (CI/CD), Vercel, Render, Git, GitHub, Tesseract OCR
AI & LLMOps: LLM Integration (Groq · Ollama · Llama-3), Prompt Engineering, Model Orchestration, Inference Pipeline Design
Productivity: Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Google Sheets
Soft Skills: Technical Problem-Solving · Analytical Thinking & Research · Adaptability & Continuous Learning · Project & Time Management · Teamwork & Leadership

PROJECTS

EcoScan AI – AI-Powered Food Label Analyzer *React · Flask · FastAPI · PostgreSQL · Docker*
• Built a full-stack AI web app using a decoupled microservices architecture (Flask + FastAPI) containerised with Docker; integrated a dedicated OCR service (Tesseract, OpenCV) and Groq Llama-3 inference pipeline for real-time ingredient analysis, health scoring, and an AI chatbot.
• Engineered secure user accounts with bcrypt password hashing and Flask-Login session management; persisted scan history, dietary preferences, and allergy data via SQLAlchemy ORM on PostgreSQL; deployed via Render with environment-based config management.

RTS Fleet Manager – Real-time Fleet & Transport Management System *Next.js · NestJS · PostgreSQL · Socket.IO*
• Built a full-stack employee transport platform supporting 50–60 concurrent drivers with sub-second live vehicle tracking via Socket.IO WebSockets, Redis caching, Leaflet maps, and Three.js visualisations; deployed on Vercel + Render with CI/CD pipelines.
• Architected a modular NestJS backend with 13 feature modules (Auth, Fleet, Routes, Rosters, Trips, Analytics, Audit, Events and more); used Drizzle ORM over TypeORM/Prisma for reduced query overhead and lower memory footprint.

AbsoluteMinds – Library Management System *Python · Tkinter · MySQL*
• Desktop app with full CRUD operations for book inventory, user auth, issue/return tracking, and CSV bulk operations; auto-database setup with normalized 3-table MySQL schema.

WORK EXPERIENCE

Python Programming Intern – ITBG, Knowledge Services Group *Apr 2025 – May 2025*
Kerala State Electronics Development Corporation Ltd. (KELTRON), Palakkad
• Completed a 2-week intensive program covering Python programming, data structures, and GUI development using Tkinter.

Cybersecurity Intern *Sep 2024 – Oct 2024*
Corizo
• Completed a one-month cybersecurity training and internship program covering core security concepts and practices.

Data Entry Operator (Part-time) *Mar 2023 – May 2024*
Rudra Travel Service, Coimbatore
• Managed high-volume data entry, client records, and spreadsheet maintenance using Microsoft Excel and Google Sheets.

EDUCATION

B.Sc. Computer Science *2023 – 2026*
Yuvakshetra Institute of Management Studies, Palakkad (NAAC A) | University of Calicut

Class XII – CBSE *86.2% | Computer Science: 97/100 (A1)* *2023*
Bharathamatha CMI Public School, Palakkad

Class X – CBSE *89.2%* *2021*
Bharathamatha CMI Public School, Palakkad

RESEARCH & PUBLICATIONS

Paper Presenter – MESKCON International Conference 2026 *Jan 2026*
MES Kalladi College (NAAC A++), Kerala | Kerala State Higher Education Council
• Presented: "EcoScan AI – Personalized, AI-based, Eco-friendly Food Product Scanning System."
